

ELECTRONIC PULL AND SPEED RECORDER

Electronic device that allows the monitoring of stringing operations by recording data during the whole operation.

An embedded printer allows printing of various parameters.
The recorder can be connected to a computer to transfer the data.
A transfer to a computer or USB key can be very useful.

Recorder is supplied with :

- A rigid carrying case.
- Connecting cables.
- Software disk for PC connection.
- Electrical power cord and adapter plugs.

Characteristics	
Voltage	10-28 V DC
Screen	Display of 2 rows with 16 digits Date and time
Recorded data	Pulling force max
	Pulling force / preset limit
	Stringing speed
Stringing length	
Dimensions L x l x h	345 x 200 x 65 mm
Weight	1,5 kg

Ref.	Accessories / options
TESM-DLK301	Stand support
